## > What?

Program review is one part of determining the overall institutional effectiveness of the colleges in the Yuba Community College District. Academic Program Reviews are periodic formal evaluations designed to bring about systematic improvements and enhancements in instructional programs. Program review also serves as the basis for all program recommendations, including curriculum and program direction, staffing, facilities, and equipment/technology.

## > Why?

Because educational program development is an obligation of the Academic Senate, faculty from every department must play an active role in the program review process. In addition, a part of each faculty member's responsibility is to
